### DETAILED ACTION

[This Office action replaces the prior Office action mailed on or about December 9, 2004, which inadvertently omitted a paragraph. The period for response has been reset as of the mailing of this Office action.]

#### ***Response to Amendment***

Applicant's amendment filed September 7, 2004 has been thoroughly reviewed and considered by the examiner. In view of applicant's amendment, the prior double patenting rejection of claims 1-25 under 35 U.S.C. 101 is hereby withdrawn.

#### ***Claim Rejections - 35 USC § 101***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 26-36 are rejected under the judicially created doctrine of double patenting over claims 1, 2, 3, 6, 7, 12 and 13 of U. S. Patent No. 6,619,308 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

Art Unit: 3753

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: a variable pressure regulator comprising a valve body having a fluid pressure chamber, a resilient member comprising a valve stem connected to a wall of the chamber, a valve element supported on the valve stem, an adjuster assembly comprising an adjuster member and cover, and a detent mechanism.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3753

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
